

NOTICE TO ALL MEMBERS

Dear Members,

Please be advised that the Lakes course greens will be bumpy for the next few weeks as they recover from the recent major hollow-tine aeration.

This essential maintenance process is vital for the long-term health and quality of our putting surfaces. We expect gradual improvement over this period as the Serangoon grass fills in and the surfaces smooth out. The greens are expected to fully recover by the first week of November 2026.

We sincerely apologize for any inconvenience caused and appreciate your patience and understanding.

Thank you.
